

Studio Surface Go

A portable control accessory for the most essential Livestream Studio controls.

Learn more at livestream.com/studio/surface-go

The Surface Go is a portable control accessory for Livestream's Studio software. It translates the feel of a traditional production switcher into a unit that's small enough to fit comfortably in your bag. With an array of assignable buttons, "Go live" and "Record" controls, a mini T-bar, and powered by an included USB cable, the Surface Go will help take your production to the next level.
