

MES-100 WebMote Bridge

Features

- MIPRO ACT-BUS interface allows remote monitoring of ACT series receivers and can now be connected to the newly developed MIPRO MES-100 bridge server, providing remote monitoring and control using any web browser.
- MIPRO MES-100 supports web-based monitoring and remote control for smartphones, tablets, PCs and laptops over a variety of operating systems, such as Windows, iOS, Android or Linux, etc. without the need for special software to remotely monitor and control all parameters. The MES-100 provides a solution for the incompatibility issues between the operating systems and monitoring software.

Specifications

Functions	Improve the transmission efficiency of ACT-BUS. Supports web-based monitoring and remote control for smartphones, tablets, PCs and laptops to remotely monitor and control all parameters. The MES-100 provides a solution for the incompatibility issues between the operating systems and monitoring software.
Accessories	USB connector or RS-232 connector for network connection. RJ-11 connector for the receiver end.
Dimensions	210 × 44 × 162 mm (W×H×D)
Weight	Approx. 840 g
Note	Refer to the actual product in the event of product discrepancy.
